

Dear Valued Suppliers,

March 17, 2020

As global concerns increase around COVID-19, the health, safety and wellbeing of our employees, customers and suppliers remain our top priority. We are closely monitoring the situation and listening to the recommendations of experts, including guidance from the World Health Organization (WHO), Canadian public health authorities and local governments.

To protect the health of everyone at our sites, given the coronavirus (COVID-19) outbreak's continued spread, we want to make sure we are doing everything we can to keep our workforce safe and healthy. We are implementing initiatives to help maintain a safe working environment.

Social distancing is an important measure encouraged by the Centre for Disease Control and the World Health Organization, so at Quin-Sea Fisheries, we are taking steps to help us meet this measure.

Effective immediately, all suppliers to Quin-Sea Fisheries facilities are asked to communicate with their Quin-Sea contacts by telephone or email before you make any on-site visits. We thank you for your support and understanding with these efforts and will keep you updated as necessary.

Should you require any further clarification, please do not hesitate to reach out to your local sales rep, or directly to myself.

Sincerely Yours,

Simon Jarding  
Managing Director, Quin-Sea Fisheries
